Dear Residents of Apartment 302:

Sorry to bother you, but I would really appreciate it if you would keep the bass on your music system turned down before 6:00 or 6:30 in the morning and again after 10:00 or 10:15 at night. My bedroom wall seems to ajoin your apartment, and while I can't hear the rest of your music, the bass comes right through and either wakes me up or keeps me awake.

I actually knocked twice on your door last night around 11:40, but apparently no one heard me. It sounded like someone turned down the volume shortly after that, but bass from several songs kept jarring me until 1:30am.

Thanks very much for your consideration,

Jonathan Hanneman
